INDIANAPOLIS POWER & LIGHT COMPANY
Pro Forma Adjustment to Federal and State Deferred Income Tax Expense
at Present Rates and at Proposed Rates for the Twelve Months Ended June 30, 2017
(Thousands of Dollars)

Calculations are based on pro forma electric utility plant in service at June 30, 2017, and reflect scheduled differences and their associated deferred taxes, as determined by IPL's application of comprehensive inter-period tax allocation and normalization principles.

- (1) From Schedule REV4, Column 6
(2) This amount represents normalized KWh sales multiplied by the proposed change in the base cost of fuel. (See IPL-OPER, Schedule OM2)
(3) This amount reflects annualized ECR revenue for projects moving into base rates and therefore excludes the return IPL accrued on construction work in progress for its NAAQS, non DBA, projects during the test year.
(4) This amount reflects the annualized lost revenues from DSM programs installed prior to the end of the test year moving into base rates.

4/1

Assumptions:

All rate base numbers agree to RB Schedules. All depreciation expense, amort of CC and amort of Depr numbers agree to DEPR Schedule.
All O&M numbers agree to O&M Pro Forma Schedules.
MATS - all numbers are per books 6-30-17. Even though there is more money to be spent, we are not pro forma adjusting the rate case.
The full project is assumed to move into base rates in this rate case.
NAAQS - all numbers are DBA only, per books 6-30-17. Even though there is more money to be spent, we are not pro forma adjusting the rate case.
Only the DBA system is assumed to move into base rates in this rate case.
NPDES - Assumes full project is in service. The numbers used here for rate base agree to RB Schedules, plus the HS7 refuel.
HS7 refuel numbers are per books 6-30-17.
CCR - Assumes full project is in service. The numbers used here for rate base agree to RB Schedules. Nothing in service at 6-30-17.
