III.	Conclusion	18

1 **I. Introduction**

2 **Q. Please identify the members of the Electric Rate Design Panel.**

3 A. The Electric Rate Design Panel (“Panel”) consists of Kellie I. Smith, Carol
4 Teixeira, and Howard S. Gorman. This is the same Panel that submitted direct
5 testimony as part of Niagara Mohawk Power Corporation d/b/a National Grid’s
6 (“Niagara Mohawk” or “Company”) July 31, 2020 filing. The terms defined in
7 the Panel’s direct testimony have the same meanings here.

8

9 **Q. What is the purpose of the Panel’s corrections and updates testimony?**

10 A. The Panel provides corrections and updates to Niagara Mohawk’s Embedded
11 Cost of Service Study (“ECOSS”), revenue forecast, rate design, Revenue
12 Decoupling Mechanism (“RDM”), Merchant Function Charge (“MFC”),
13 Transmission Revenue Adjustment (“TRA”) mechanism, Marginal Cost of
14 Service Study (“MCS”), and outdoor lighting service items based on updates
15 and corrections made to the Company’s revenue requirement and other changes
16 identified since the July 31, 2020 filing. The Panel also provides revised bill
17 impacts based on the corrected and updated information. Further, the Panel
18 updated the proposed rates for the Company’s Residential EV Smart Charging
19 Plan, as well as incremental customer charges and certain tariff charges, fees,
20 and provisions. Finally, the Panel proposes a tariff modification to introduce a
21 new Earnings Adjustment Mechanism (“EAM”) metric.

1

2 **Q. Has the Panel prepared any exhibits to reflect its corrections and updates?**

3 A. Yes. The Panel prepared the following exhibits and two appendices.

- 4 • Exhibit ____ (E-RDP-2CU) – Revenue Forecast
- 5 • Exhibit ____ (E-RDP-3CU) – Embedded Cost of Service Study
- 6 • Exhibit ____ (E-RDP-4CU) – Proposed Revenue Allocation, Rate Design
- 7 and Customer Bill Impacts
- 8 • Exhibit ____ (E-RDP-5CU) – SC-7 Rate Design
- 9 • Exhibit ____ (E-RDP-6CU) – Proposed Tariff Fees
- 10 • Exhibit ____ (E-RDP-7CU) – Merchant Function Charge - Electric
- 11 • Exhibit ____ (E-RDP-8CU) – Revenue Allocation, Rate Design, and
- 12 Development of Target Revenue per Lighting Class
- 13 • Exhibit ____ (E-RDP-9CU) – Revenue Decoupling Mechanism – Annual
- 14 Revenue Targets
- 15 • Exhibit ____ (E-RDP-10CU) – Marginal Cost Study
- 16 • Exhibit ____ (E-RDP-11CU) – Residential Electric Vehicle Smart Charging
- 17 Plan
- 18 • Exhibit ____ (E-RDP-14CU) – Workpapers
- 19 • Appendix A – Company’s Responses to Relevant Information Requests
- 20

1 **Q. Will the Panel refer to any information provided during the discovery**
2 **phase of this proceeding?**

3 A. Yes. The Panel will refer to information provided in response to Information
4 Request Nos. DPS-334 and DPS-625, copies of which are included in Appendix
5 A.

7 **II. Corrections and Updates**

8 **A. Embedded Cost of Service Study**

9 **Q. Please describe the corrections and updates to the ECOSS.**

10 A. Exhibit __ (E-RDP-3CU) presents the updated ECOSS (“ECOSS (CU)”),
11 which reflects the revenue requirement presented in Exhibit __ (RRP-1CU), as
12 well as the sales forecast and customer count presented in the corrections and
13 updates testimony of Company Witness Joseph F. Gredder. The ECOSS (CU)
14 corrects the assignment of transformers that serve SC 3 customers (see Exhibit
15 __ (E-RDP-3), Schedule 9K) and updates the allocation of costs in Customer
16 Assistance Expense (account 908) to reflect the programs in that account (see
17 Exhibit __ (E-RDP-3CU), Schedule 9Q). There were no changes to the
18 methodology from the Company’s initial ECOSS filed July 31, 2020, and no
19 other changes in the assignment or developer allocators.

20

1 The results of the ECOSS (CU) are presented on Exhibit __ (E-RDP-3CU),
2 Schedule 1. Lines 1-12 show delivery revenue at present rates, net income at
3 present rates, rate base, and rate of return on rate base, for the total Company
4 and for each rate class. Line 11 presents the return on rate base at present rate
5 revenue for each class, and line 12 compares each class's return to the system
6 return of 5.16 percent. Line 13 presents the revenue requirement for each class
7 to achieve the system average target return of 6.31 percent, and line 27
8 computes the change in base delivery revenues needed to achieve this revenue
9 requirement. This information provides guidance for allocation of the
10 Company's proposed revenue increase and rate design.

11
12 **B. Revenue Allocation**

13 **Q. Please describe the Company's proposed revenue allocation.**

14 A. Exhibit __ (E-RDP-4CU), Schedule 1 presents the proposed revenue allocation
15 to meet the revenue requirement presented in Exhibit __ (RRP-1CU). To
16 produce the target revenue for each class, the Panel multiplied by 102.11
17 percent the increases proposed in its initial filing at Exhibit __ (E-RDP-4),
18 Schedule 1, line 35; these updated proposed increases are shown on Exhibit __
19 (E-RDP-4CU), Schedule 1, line 35. This was appropriate because the relative
20 returns for each class computed in the ECOSS (CU) were very close to the
21 relative returns in the Company's initial filing (compare Exhibit __ (E-RDP-

1 4CU), Schedule 1, line 8 to Exhibit ___ (E-RDP-4), Schedule 1, line 8), and the
2 position of each class with respect to both the average return and the tolerance
3 band was very close to the Panel's initial filing.

4
5 The delivery revenue proposed for each class is shown on Exhibit ___ (E-RDP-
6 4CU), Schedule 1, line 37. The proposed revenue allocation produces returns
7 ranging from 4.8 percent to 6.9 percent (except for SC 1C, which is 14.5
8 percent) with the system target return of 6.31 percent (line 46), and reflects the
9 results of the ECOSS (CU).

10
11 **C. Rate Design**

12 **Q. How were the proposed rates for each class developed?**

13 A. Exhibit ___ (E-RDP-4CU), Schedule 4 presents the proposed rates for each class.
14 The proposed rates produce the target revenue for each class that is developed
15 on Schedule 1, line 37, with very small differences due to rounding. The fixed
16 monthly charges were increased by approximately two percent (except for SC
17 2ND, which was not changed), and the RkVA rates where applicable were not
18 changed. The kWh-based and kW-based volumetric rates for each class were
19 then computed to produce the balance of the class' revenue target.

1 The NYPA Credit and related ETIP Adder, as well as the SC1-VTOU rates,
2 were computed as described in the Panel's direct testimony.

3
4 **D. Revenue Forecast**

5 **Q. Please describe the corrections and updates to the revenue forecast.**

6 A. The Panel is updating Exhibit ____ (E-RDP-2), Schedules 1-3, which showed
7 the Company's revenue forecast at present rates, to reflect (i) updates to the
8 revenue forecast to reflect the updated sales and customer count forecast
9 presented in the corrections and updates testimony of Company Witness
10 Gredder, (ii) outdoor lighting sales and revenue as well as the inflation rate
11 applicable to certain components of miscellaneous revenue including CSS
12 (Customer Service System) – line extension fees, supervision and
13 administration burdens, miscellaneous third-party billing, distributed
14 generation interconnection fees, and right of way, (iii) the movement of the
15 illustrative estimated ESCO commodity revenues from the calculation of total
16 revenue to a separate column, and (iv) revisions to the surcharges and
17 miscellaneous revenues as further described below.

18
19 Exhibit ____ (E-RDP-14CU) provides the updated workpapers to the revenue
20 forecast presented in Exhibit ____ (E-RDP-2CU).

1 **Q. Please describe the updates to miscellaneous revenues.**

2 A. The Company updated inflation rates that impacted the forecast of several
3 miscellaneous revenue items. The increase in inflation rates led to higher
4 revenue forecasts for the various miscellaneous revenue items noted above.
5 Further, the Company identified two corrections in its response to Information
6 Request No. DPS-625. First, the Company reclassified the rent payments from
7 Stillwater Hydro from the “Plant Leased to Others” to the “Other Misc Electric
8 Rev” category in the miscellaneous revenue forecast. Second, the Company
9 removed lease payments from the Union Falls hydroelectric facility from the
10 “Plant Leased to Others” forecast as this agreement will be terminated prior to
11 the start of the Rate Year. The revised miscellaneous revenue forecast is
12 provided in Exhibit ____ (E-RDP-2CU), Schedule 4.

13

14 **E. Transmission Revenue Adjustment**

15 **Q. Please describe any updates to the forecast of the Wholesale Transmission**
16 **Revenues.**

17 A. The Company updated the forecast to reflect the updated pre-tax weighted
18 average cost of capital (“WACC”) for the revenue associated with the WNY
19 Public Policy Transmission Needs projects. In addition, the Transmission
20 Congestion Contract (“TCC”) auction revenues were updated to reflect the
21 retirement of an asset and the resulting revenue associated with the sale of the

1 related TCCs. The revised Wholesale Transmission Revenue forecast is shown
2 in detail in Exhibit __ (E-RDP-2CU), Schedule 4.

3
4 **Q. Please describe the Company's proposed revision to the TRA mechanism**
5 **for the New York AC Transmission Proceeding projects.**

6 A. As described in the corrections and updates testimony of the Revenue
7 Requirements Panel, the proceeds from the lease of land in the New York AC
8 Transmission projects will be amortized into Rent from Electric Property FERC
9 454 account over the 99-year lease term. The Company proposes to treat land
10 lease payment revenues as transmission revenue subject to the TRA. The TRA
11 mechanism in Rule 43 of the Tariff is the true-up mechanism that compares the
12 monthly forecast of transmission revenues reflected in delivery rates against the
13 actual transmission revenue realized, exclusive of revenue taxes imposed. The
14 difference in forecast versus actual transmission revenues is refunded to, or
15 recovered from, customers via the TRA mechanism depending on the results of
16 that analysis. Currently, "transmission revenue" is defined in Rule 43.2 as
17 "wholesale transmission services, excluding congestion rents from
18 Transmission Congestion Contracts, (TCCs)." The Company proposes to add
19 "and the lease of transmission land in connection with FERC Order 1000
20 proceedings" to the definition in Rule 43.2 to return the proceeds of the land
21 lease to customers as booked to revenue that are not currently reflected in the

1 revenue requirements for the current land lease transaction as well as future
2 similar transactions.

3
4 Because the exact timing and dollar amount for the land lease payment revenue
5 is uncertain and subject to various regulatory reviews and approvals, the
6 forecast of this revenue is not included in the Company's transmission revenue
7 targets at this time. The Company will, however, pass the monthly amortized
8 revenues through the TRA mechanism as the balances are amortized to
9 revenues over the associated 99-year lease period.

10
11 **F. Bill Impacts**

12 **Q. Did the Company update the monthly bill impacts?**

13 A. Yes. The Company prepared updated monthly bill comparison tables showing
14 the net change to customers' monthly delivery and commodity charges by zone
15 for different levels of usage in Exhibit __ (E-RDP-4CU), Schedule 5 based on
16 the updated revenue requirement. In addition, the Company prepared updated
17 total bill impact tables for Outdoor Lighting customers in Exhibit __ (E-RDP-
18 8CU), Schedule 13.

19
20 As in the Panel's direct testimony, the bill impacts are compared to the rates
21 that will be in effect as of June 30, 2021, which are the Rate Year 4 rates from

the 2017 Electric Rate Case. The table below provides a summary of the updated bill impacts for an average usage customer within each electric service class in the Central zone.

Table 1 - Monthly Bill Impacts, Central Zone, One-Year Case

Average Usage Customer	Monthly Usage	Delivery \$ Increase	Delivery % Increase	Total Bill \$ Increase	Total Bill % Increase
SC-1	600 kWh	\$3.72	6.14%	\$3.50	4.11%
SC-2ND	450 kWh	\$3.53	6.22%	\$3.36	4.50%
SC-2D	6,336 kWh 22 kW	\$21.90	5.63%	\$19.56	3.09%
SC-3 Pri	203,040 kWh 470 kW	\$394.12	5.70%	\$380.56	2.66%
SC-3A Tran	5,241,600 kWh 9,100 kW 50% on peak	\$6,215.46	7.83%	\$5,836.55	2.27%

G. Revenue Decoupling Mechanism

Q. Please describe the updates to the RDM.

A. Exhibit __ (E-RDP-9CU) provides updated annual target revenues for each reconciliation group for the RDM reconciliation. The updated targets are per the updated computed distribution revenue for the Rate Year as found in Exhibit __ (E-RDP-4CU), Schedule 4, page 2.

H. Merchant Function Charge

Q. Please describe the updates to the MFC.

1 A. Exhibit __ (E-RDP-7CU) provides updated MFC targets to reflect the updated
2 sales forecast provided by Company Witness Gredder, as well as the updated
3 WACC percentage as shown in Exhibit __ (RRP-1CU).

4

5 **I. Outdoor Lighting**

6 **Q. Please describe the corrections and updates to the outdoor lighting.**

7 A. The Panel has several corrections and updates to its outdoor lighting service
8 testimony.

9

10 First, the facility data supporting the revenue forecast has been adjusted to
11 reflect the Section 70 petitions filed by the Company, between June 27, 2020
12 and September 18, 2020, seeking approval to transfer street lighting assets to
13 municipal customers. Specifically, in contemplation that those petitions will be
14 approved by the Commission, the Panel moved the following municipalities'
15 facility quantities from SC 2 (company owned and maintained) to SC 3
16 (customer owned and maintained): Town of Tonawanda, City of Tonawanda,
17 Village of Lima, Village of Brockport, City of Gloversville, and Town of
18 Salina. The facility quantities and usages provided in Exhibit __ (E-RDP-8CU)
19 reflect the adjustments to the Historic Test Year quantities for the above
20 expected sales. Relatedly, the Company (i) removed the Pricing Exception for
21 the Town of Tonawanda from the Outdoor Lighting Tariff and SC 2 Pricing

1 Exception rate design previously included in Exhibit __ (E-RDP-8), Schedule
2 4 and (ii) removed the Village of Brockport's Special Contract's rate design
3 previously included in Exhibit __ (E-RDP-8), Schedule 7.
4

5 Second, the outdoor lighting rate design for SC 2, SC 2 Pricing Exceptions, and
6 SC 3 included certain incorrect present facility rates. The corrected present
7 facility rates are shown in Exhibit __ (E-RDP-8CU), Schedules 3, 4, and 5 for
8 SC 2, SC 2 Pricing Exceptions, and SC 3, respectively.
9

10 Third, the Panel removed from the Pricing Exception bill impact chart two
11 customer accounts that do not contain Pricing Exception facility rates, which
12 are now correctly reflected in the SC 2 bill impacts. The revised Pricing
13 Exception bill impact chart can be found in Exhibit __ (E-RDP-8CU), Schedule
14 13, page 4.
15

16 Fourth, the Lighting Service Charge for SC-2 and SC-6 in Exhibit __ (E-RDP-
17 8), Schedule 11 has been updated with the revised inflation factor between the
18 Historic Test Year and Rate Year, resulting in an increase in the Lighting
19 Service Charge from \$122.80 to \$122.83.
20

1 Lastly, Exhibit __ (E-RDP-8CU), Schedule 10, has been updated to reflect the
2 revised pre-tax WACC rate used in the calculation of the HID-to-LED ratio
3 within the Replacement Cost Analysis. This increased the HID-to-LED ratio
4 from 52.12 percent to 52.24 percent.

5
6 **J. Changes to Residential Electric Vehicle Smart Charging Plan**

7 **Q. Is the Company revising the proposed rates for the Residential Electric**
8 **Vehicle Smart Charging Plan?**

9 A. Yes. The rates for the proposed EV Smart Charging Plan are developed based
10 on the Company's SC1 VTOU on-peak and off-peak rates, which are being
11 updated because of the revised revenue requirement. The fixed monthly EV
12 charge for Tier 1 and Tier 2 customers will remain the same as in the Panel's
13 direct testimony. The EV On-peak Charge will be updated from \$0.13715 to
14 \$0.13728 per kWh. The monthly incremental customer charge of \$8.00 per
15 month will remain the same. The calculations of the updated rates are provided
16 in Exhibit ____ (E-RDP-11CU), Schedule 1. An updated illustration of a
17 customer's total charges on either Tier of the program is provided in Exhibit
18 ____ (E-RDP-11CU), Schedule 2.

1 **K. Changes to Tariff Fees, Charges, and Provisions**

2 **i. Incremental Customer Charges**

3 **Q. Please describe the corrections and updates to the proposed incremental**
4 **customer charges.**

5 A. The Panel has updated the incremental customer charge associated with
6 customers enrolled in (i) Special Provision L of SC-1, Residential Optional
7 Time of Use Delivery and Commodity Rate and (ii) Special Provision O of SC-
8 2, Non-Demand Optional Time of Use Rate to include both the revised inflation
9 rate between the Historic Test Year and Rate Year, as well as the pre-tax
10 WACC. The change resulted in a decrease of the rate from \$3.26 per month to
11 \$3.25 per month and is shown in Exhibit __ (E-RDP-6CU), Schedule 4b, Page
12 3.

13
14 **Q. Does the Panel propose updates to any other proposed incremental**
15 **customer charges?**

16 A. Yes, the Panel updated the incremental customer charge associated with
17 customers enrolled in (i) Special Provision P of SC2 Voluntary Hourly Priced
18 Electricity Supply Service for SC2D Customers, (ii) Special Provision L of
19 SC3, Electricity Supply Service for Customers 250 KW or Greater, and (iii)
20 Special Provision N, Voluntary Electricity Supply Service for SC3 Customers
21 Below 250 KW to include both the revised inflation rate between the Historic

1 Test Year and Rate Year, as well as the pre-tax WACC. The change resulted
2 in an increase of the rate from \$23.38 per month to \$23.52 per month and is
3 shown in Exhibit __ (E-RDP-6CU), Schedule 4c, Page 5.

4
5 **ii. Paperless Billing Credit**

6 **Q. Has the Company proposed any updates to the Paperless Billing Credit?**

7 A. The Company updated the calculations for the Paperless Billing Credit using
8 the revised inflation factor, but the resulting credit remains as filed in the
9 Company's July 31, 2020 filing. The Company is providing the updated
10 calculations for reference in Exhibit ____ (E-RDP-6CU), Schedule 2, Page 1.

11
12 **iii. Billing Backout Credit and Billing Charges**

13 **Q. Has the Company proposed any updates to the Billing Backout Credit and**
14 **Billing Charges?**

15 A. Exhibit __ (E-RDP-6CU), Schedule 3 updates the Company's calculation of its
16 Billing Backout Credit and Billing Charges to ESCOs for consolidated billing.
17 Although the calculation shows a billing charge of \$0.81, the Company
18 proposes to maintain the proposed \$0.80 billing charge to an ESCO that
19 supplies gas to a gas-only customer and \$0.40 to an ESCO that supplies gas to
20 a dual gas and electric customer submitted in its July 31, 2020 filing. By doing
21 so, the ESCO billing charge and customer backout credit will be consistent

1 regardless of whether the customer is a gas-only customer or a dual gas and
2 electric customer.

3
4 **Table 2 – Revised Proposed ESCO Billing Charge and Backout Credit**

Type of Customer	Type of ESCO Service	ESCO Billing Charge	Customer Backout Credit
Electric Only	ESCO Supplies Electric	\$0.80	\$0.80
Dual Electric & Gas	ESCO Supplies Electric	\$0.40	\$0.40

5
6 **L. Marginal Cost of Service Study**

7 **Q. Please describe any changes to the Marginal Cost of Service Study.**

8 A. The Marginal Cost of Service Study was updated to reflect the updated
9 revenue requirement (Exhibit __ (RRP-1CU)) and the results of the ECOS
10 (CU). It is presented in Exhibit __ (E-RDP-10CU).

11
12 **Q. Please describe any revisions to the EZR and EJP rates.**

13 A. In its direct testimony, the Panel proposed to phase-in the increases of the EZR
14 and EJP rates to mitigate bill impacts on these customers and continue to
15 provide a discount from the proposed standard tariff rates. The Panel updated
16 this five-year phase-in proposal using the updated proposed standard tariff rates
17 and the updated marginal costs. The updated five-year phase-in proposal is

1 provided in Exhibit __ (E-RDP-10CU), Schedule 8, page 1 for EJP and page 2
2 for EZR.

3
4 **M. Earnings Adjustment Mechanism (EAM)**

5 **Q. Please describe any adjustments to the Earnings Adjustment Mechanism.**

6 A. As described in the Customer Energy Panel's corrections and updates
7 testimony, the Company is proposing a two-component Make-Ready Share the
8 Savings ("MR STS") metric to the Company's Electric EAM Portfolio. For the
9 calculation of the EAM Surcharge, the Company proposes to allocate the new
10 MR STS components using the Energy Allocator. Once approved, the Panel
11 will modify the Electric Tariff accordingly to introduce the new MR STS
12 metric.

13
14 **N. Other Corrections and Updates**

15 **Q. Are there any other corrections and updates?**

16 A. Yes, as explained in the Company's response to Information Request No. DPS-
17 334, the Company proposed to update the customer charges for all service
18 classifications except SC 2ND. The Panel's direct testimony incorrectly stated
19 that the customer charges for all service classifications were unchanged.

20

1 **III. Conclusion**

2 **Q. Does this conclude your testimony?**

3 **A. Yes, it does.**

Corrections and Updates Testimony of the Electric Rate Design Panel

List of Exhibits

- Exhibit ____ (E-RDP-2CU) – Revenue Forecast
- Exhibit ____ (E-RDP-3CU) – Embedded Cost of Service Study

Calculation of Hourly Pricing Incremental Customer Charge
For Service Classification No. 2-Demand (SC2D) and Service Classification No. 3 (SC3)
Annual Operating Expenditure Cost Calculations

Notes:

- 1 Count of meters based on number of hourly-priced customers; as of 12/31/2019.
Customers in SC3 exempt from paying incremental customer charge include those enrolled in economic development programs.
Spares not included in annual operating expense calculation
- 2 Annual wireless network fee charged to the customer for communication to digital cell meter; annual fee times Line 1.
- 3 Monthly service costs for a land line serviced by Granite Telecommunication; blended cost by frequency.
- 4 Monthly service costs for a land line serviced by Verizon Communication; blended cost by frequency; annual fee times Line 1.
- 5 Line 2 + Line 4
- 6 Percent estimate provided by Meter Data Services (MDS); percentage times Line 1.
- 7 Percent estimate provided by Meter Data Services (MDS); percentage times Line 1.
- 8 Line 6 + Line 7
- 9 Labor on troubleshooting call: M&T Field Tester D (PG20-step 2), Local 97 Blue Book, Wage Schedule P; Effective 4/1/2020; blended rate weighted by frequency.
Troubleshooting hour estimates provided by Meter & Test by meter type.
- 10 Labor on troubleshooting call: M&T Field Tester E (PG22-step 2), Local 97 Blue Book, Wage Schedule P; Effective 4/1/2020; blended rate weighted by frequency.
Troubleshooting hour estimates provided by Meter & Test by meter type.
- 11 Blended labor rate in Line 9/10 times hour estimates in Line 9/10.
- 12 Line 8 x Line 11
- 13 NMPC non-management Labor Overhead rate; as of April 2020; percentage times Line 12 total.
- 14 Supervision over service calls: MDS average salary Management Band E.
Supervision hour estimates provided by MDS by meter type.
- 15 Labor rate in Line 14 times hour estimates in Line 14.
- 16 Line 8 x Line 15
- 17 NMPC management Labor Overhead rate; as of April 2020; percentage times Line 16 total.
- 18 Line 12 + Line 13 + Line 16 + Line 17.
- 19 Cost per hour of Van Compact AWD vehicle with fuel; from Fleet Management; as of 12/31/19.
Installation hour estimates from Line 9/10 by meter type.
- 20 Transportation rate in Line 19 times hour estimates in Line 19.
- 21 Line 8 x Line 20.
- 22 Line 5 + Line 18 + Line 21.
- 23 NMPC Supervision & Administrative Overhead rate; as of September 2019; percentage times Line 22.
- 24 Line 22 + Line 23; value used as annual operating cost input in Revenue Requirement calculation (column Q).

SC3A Sec/Pri	\$26,515,223
SC3A Sub	\$15,970,331
SC3A Tran	\$52,330,858
PSC 214 (all classes)	\$46,266,275
Totals	\$1,694,453,734

Notes:

RDM Targets are the 'Computed Distribution Revenue' for Rate Year ending June 30, 2022 as found in Exhibit ____(E-RDP-4CU), Schedule 4, Page 2 of 2.

RDM Targets are the sum of the proposed Customer Charge Revenue, Demand Charge Revenue, kWh Delivery Charge Revenue and RKVA Revenue.

Demand Charge Revenue includes NYPA ETIP Sur-credits.

Residential EV Smart Charging Plan

Schedules 1-2

Development of Residential EV Smart Charging Plan Rates

Rates for Rate Year 1 - July 1, 2021 to June 30, 2022

Calculation of EV On-peak and Off-peak Charging Rates

Line	<u>EV Delivery Rates</u>	<u>On-peak Rate</u>	<u>Off-peak Rate¹</u>
1	Delivery Rate (SC1VTOU)	\$0.07888	\$0.01047
2	Systems Benefits Charge (SBC)	\$0.00520	\$0.00520
3=1+2	Sum Delivery	\$0.08408	\$0.01567
	<u>EV Supply Rates</u>	<u>On-peak</u>	<u>Off-peak</u>
4	Supply Rate (Forecasted)	\$0.04606	\$0.02630
5	Clean Energy Standard Supply	\$0.00556	\$0.00556
6	Merchant Function Charge	\$0.00157	\$0.00104
7=4+5+6	Sum Supply	\$0.05320	\$0.03290
		<u>On-peak</u>	<u>Off-peak¹</u>
8=3+7	Residential EV Smart Managed Charging Rates	\$0.13728	\$0.04857

Calculation of EV Fixed Monthly Charge (for Off-peak Charging)

<u>EV Fixed Monthly Charge Rate Tier 1</u>			
	Rate	Quantity	Charge
9	Incremental Customer Charge	\$8.00	\$8.00
10=3 (Off-peak)	EV Off-peak Delivery Rate	\$0.01567 225	\$3.53
11=7 (Off-peak)	EV Off-peak Supply Rate	\$0.03290 225	\$7.40
12=9+10+11	Sum		\$18.93
13=Roundup 12	EV Monthly Charge - Tier 1		\$20.00
14=13/10 (Quantity)	Effective price per kwh		\$0.08889
<u>EV Fixed Monthly Charge - Tier 1</u>			
	Rate	Quantity	Charge
15=9	Incremental Customer Charge	\$8.00	\$8.00
16=10 (Off-peak)	EV Off-peak Delivery Rate	\$0.01567 325	\$5.09
17=7 (Off-peak)	EV Off-peak Supply Rate	\$0.03290 325	\$10.69
18=15+16+17	Sum		\$23.78
19=Roundup 18	EV Fixed Monthly Charge - Tier 2		\$25.00
20=19/16 (Quantity)	Effective price per kwh		\$0.07692

Note 1 - The EV Off-peak charging rate is only used in the development of the EV Monthly Charge and is not billed separately.

Electric Rate Design Panel

Appendix A

Company's Responses to Relevant Information Requests

Date of Request: August 14, 2020
Due Date: August 24, 2020

Request No. DPS-334
NMPC Req. No. NM -368

NIAGARA MOHAWK POWER CORPORATION d/b/a NATIONAL GRID

Case Nos. 20-E-0380 and 20-G-0381

Electric and Gas Rates

Request for Information

FROM: DPS Staff, Sandra Hart

TO: National Grid, Electric Rate Design Panel

SUBJECT: Customer Charges

Request:

Note: In all interrogatories, all requests for workpapers or supporting calculations shall be construed as requesting any Word, Excel or other computer spreadsheet models in original electronic format with all formulae intact and unlocked.

1. On page 41, lines 14-15 of the Electric Rate Design Panel's testimony, the Company states "to mitigate rate impacts on lower-usage customers, the customer charges for each rate class were unchanged." Did the Company perform any rate design analysis that included increases to electric service classification customer charges? If so, provide the customer charge amounts and associated bill impacts that were evaluated, but subsequently not utilized, for each service classification.

Response:

Please note that the Company's Electric Rate Design Panel's direct testimony on page 41, lines 14-15, is not correct and will be updated in Corrections and Updates. The Company has proposed increases to the customer charges of all electric service classes, with the exception of SC2 ND. The proposed increased customer charges are provided in Exhibit __ (E-RDP-4), Schedule 4, Page 1. The bill impacts provided in Exhibit __ (E-RDP-4), Schedule 5, reflect these proposed increased customer charges.

NIAGARA MOHAWK POWER CORPORATION d/b/a NATIONAL GRID

Case Nos. 20-E-0380 and 20-G-0381

Electric and Gas Rates

Request for Information

FROM: DPS Staff, Tshepo Simpson
TO: National Grid, Electric Rate Design Panel
SUBJECT: Misc. Revenues – Plant Leased to Others

Request:

Note: In all interrogatories, all requests for workpapers or supporting calculations shall be construed as requesting any Word, Excel or other computer spreadsheet models in original electronic format with all formulae intact and unlocked.

1. Referring to Exhibit____(E-RDP-2), Schedule 4, Page 9, provide the purchase power agreements and/or calculations used to support the Rate Year forecast for hydro lease payments.
2. The Exhibit notes that a customer is in default and its lease will likely be terminated in 2020. Explain why the customer's lease payments are included in the Rate Year forecast.

Response:

1. Please see Attachments 1-6 for the lease agreements. Attachments 1 through 6 are confidential and will be submitted in accordance with the Protective Order issued in these proceedings. Please see Attachment 7 for the lease calculation backup. The Company incorrectly identified Stillwater Hydro as lease payments in the initial filing. The Company entered into a Contract of Sale in 1992, separate from the PPA for the Stillwater Hydro facility, to sell a dam, certain lands, and water rights over time with an initial payment at closing and annual payments through 2028. The Company will reclassify the Stillwater rent payments from the 'Plant Leased to Others' line to the 'Other Misc Electric Revenue' line in the Corrections and Updates filing.
2. The lease payments referenced were inadvertently included in the Rate Year forecast. The Company conducted a formal auction process in 2020 to sell the Company's real property interests and improvements in the hydroelectric facility and has executed a Purchase and Sale Agreement with the successful bidder subject to regulatory approvals. The lease will terminate at closing along with the existing Power Purchase Agreement. The Company anticipates filing a petition in the next few weeks seeking Commission

approval to transfer its interests in the hydroelectric facility pursuant to Public Service Law Section 70. The petition will address the disposition of the sale proceeds and the lease payments in arrears. The Company will remove the lease payments from the Rate Year forecast in the Corrections and Updates filing.
